DRY DOG FOOD

FOR ADULT DOGS

Tasty

Kibble size:

S/M M/L

Available pack sizes:

1 kg 10 kg 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre
26%	14%	6%	7,8%

moisture	calcium	phosphorus
8%	1,5%	0,9%

Exceptionally palatable, complete dry food for adult dogs of all breeds. It contains an optimal amount of highly digestible, high-quality protein and well-balanced carbohydrates. The dual-protein formula with pork and duck is particularly suitable for fussy eaters and dogs with reduced appetite. Enriched with health-supporting nutraceuticals and easily digestible rice, it provides your dog with a perfectly balanced diet.

Ingredients: pork and duck 60% (including: dried pork 40%, fresh pork 10%, fresh duck 10%), rice 18%, beef and pork fat 10%, vegetables 7% (carrot, celery, pumpkin), vitamin and mineral supplement, natural humic acids, tannins (sweet chestnut extract), MOS (mannan-oligosaccharides), FOS (fructo-oligosaccharides), beta-glucans, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

Fish Hunter

Kibble size:

S/M M/L

Available pack sizes:

1 kg 10 kg 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre
26%	15%	7,5%	3,5%

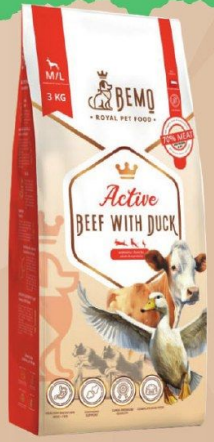

moisture	calcium	phosphorus
8%	1,4%	1,1%

Exceptionally nutritious, complete dry food for adult dogs. It provides a balanced diet with an optimal amount of highly digestible protein and valuable carbohydrates. The formula is enriched with health-supporting nutraceuticals and Omega-3 fatty acids derived from fish, including trout, zander and pike. The addition of easily digestible rice and tender beef combined with fish helps provide a perfectly balanced diet for every dog.

Ingredients: beef and fish 55% (beef 40%, including: dried beef 30%, fresh beef 10%; fish 15% – trout, zander, pike), rice 13%, beef and pork fat 10%, vegetables 9% (carrot, parsley, potato flakes), beet fibre, brewer's yeast, hemp flour, collagen, milk thistle, oyster mushroom, tannins (sweet chestnut extract), glucosamine (350 mg/kg), chondroitin (80 mg/kg).

DRY DOG FOOD

FOR ACTIVE DOGS | FOR ADULT DOGS

Active

Kibble size:

M/L

Available pack sizes:

1 kg | 10 kg | 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre	moisture	calcium	phosphorus
32%	18%	7,5%	3,5%	8%	1,8%	1,2%

Highly energetic, complete dry food for active and working dogs. It provides a balanced diet with an optimal amount of highly digestible protein and high-quality carbohydrates. The dual-protein formula with beef and duck, enriched with nutraceuticals and easily digestible rice, supports the daily performance and condition of active dogs. In addition, a chondroprotective complex helps support joints, tendons and ligaments.

Ingredients: beef and duck 60% (including: dried beef 30%, fresh beef 15%, fresh duck 15%), rice 18%, beef and pork fat 10%, vegetables 10% (carrot, parsley, spinach, potato flakes), beet fibre 3%, brewer's yeast, collagen, linseed oil, natural humic acids, milk thistle, tannins (sweet chestnut extract), glucosamine (350 mg/kg), chondroitin (80 mg/kg).

Complet

Kibble size:

S/M | M/L

Available pack sizes:

1 kg | 3 kg | 10 kg | 15 kg

Analytical constituents:

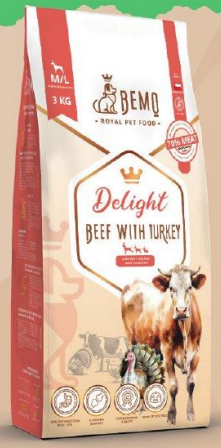

crude protein	crude fat	crude ash	crude fibre	moisture	calcium	phosphorus
32%	14%	5%	7,5%	8%	2%	1,3%

Complete super-premium food for adult dogs of all breeds. It contains three types of meat: beef, easily digestible turkey and nutritious lamb. The formula is enriched with Polish fruit and vegetables as well as health-supporting nutraceuticals, including humic acids that support digestion and metabolic balance. In addition, a chondroprotective complex helps support the musculoskeletal system.

Ingredients: beef, turkey and lamb 60% (including: dried beef 45%, fresh turkey 10%, fresh lamb 5%), vegetables 19% (potato flakes, carrot, parsley, spinach), hydrolysed beef protein 10%, beef and pork fat 5%, hemp flour 1.5%, brewer's yeast, linseed oil, natural humic acids, tannins (sweet chestnut extract), milk thistle, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

DRY DOG FOOD

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre
24%	12%	5%	7,8%

mois-ture	calcium	phos-phorus
8%	1,5%	1%

Exceptionally nutritious, complete dry food for adult dogs of all breeds. It contains an optimal amount of highly digestible protein and valuable carbohydrates. The dual-protein formula with turkey and rabbit is particularly suitable for dogs with sensitive digestive systems and reduced immunity. The food is enriched with health-supporting nutraceuticals and easily digestible rice, helping to provide your dog with a perfectly balanced diet.

Ingredients: turkey and rabbit 60% (including: dried turkey 40%, fresh turkey 10%, fresh rabbit 10%), rice 18%, beef and pork fat 10%, vegetables 7% (carrot, parsley, pumpkin), vitamin and mineral supplement, natural humic acids, tannins (sweet chestnut extract), MOS (mannan-oligosaccharides), FOS (fructo-oligosaccharides), beta-glucans, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

DRY DOG FOOD

FOR ADULT DOGS

Black Sheep

Kibble size:

S/M M/L

Available pack sizes:

1 kg 3 kg 10 kg 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre	moisture	calcium	phosphorus
25%	11%	6%	6%	9%	1,5%	1%

Super-premium hypoallergenic food for adult dogs of all breeds, based on a single source of animal protein – tender, highly digestible lamb. The formula, enriched with Polish fruit and vegetables as well as health-supporting nutraceuticals, supports your dog's everyday well-being. Easily digestible rice provides energy, while the chondroprotective complex supports the musculoskeletal system.

Ingredients: lamb 55% (including: dried lamb 35%, fresh lamb 20%), rice 18%, potato flakes 15%, vegetables 6% (carrot, celery, Hokkaido pumpkin), beef fat 5%, brewer's yeast, hemp flour, spelt flour, Boskoop apples, collagen, milk thistle, alpine wormwood, natural humic substances, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

Wilderness Venison

Kibble size:

S/M M/L

Available pack sizes:

1 kg 10 kg 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre	moisture	calcium	phosphorus
27%	14%	7%	3,5%	8%	1,5%	1%

Complete dry food for adult dogs of all breeds. The grain-free, multi-protein formula with "wild proteins" is particularly suitable for fussy eaters and dogs with sensitive digestive systems or a tendency towards allergies. It provides a balanced diet thanks to highly digestible protein, valuable carbohydrates and a blend of health-supporting nutraceuticals. A chondroprotective complex supports the musculoskeletal system, while unsaturated fatty acids help maintain healthy skin and coat.

Ingredients: wild boar, venison and hare 60% (including: dried wild boar 38%, fresh venison 18%, fresh hare 4%), potato flakes 19%, beef and pork fat 8%, vegetables and fruit 8% (beetroot, carrot, celery, blueberries, raspberries), vitamin and mineral supplement, natural humic acids, tannins (sweet chestnut extract), MOS (mannan-oligosaccharides), FOS (fructo-oligosaccharides), beta-glucans, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

DRY DOG FOOD

FOR ADULT DOGS | FOR SENIOR DOGS

Optimal

Kibble size:

S/M | M/L

Available pack sizes:

1 kg | 10 kg | 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre	moisture	calcium	phosphorus
25%	13%	6%	7,8%	8%	1,5%	1%

Complete super-premium dry food for adult dogs of all breeds. It is based on two sources of animal protein – veal and turkey (60% in total) – making it exceptionally palatable and highly digestible, including for dogs with sensitive digestive systems. The chicken-, wheat-, corn- and pea-free formula helps minimise the risk of food allergies and intolerances. The addition of humic substances supports metabolism and intestinal health.

Ingredients: veal and turkey 60% (including: dried veal 41%, fresh turkey 19%), rice 18%, beef and pork fat 9%, vegetables 8% (carrot, parsley, pumpkin), vitamins and minerals, natural humic acids, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

Senior & Light

Kibble size:

UNI SIZE

Available pack sizes:

1 kg | 10 kg | 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre	moisture	calcium	phosphorus
22%	8%	6%	6%	8%	1,5%	1%

Complete super-premium dry food for senior and overweight dogs.
The monoprotein formula based on highly digestible turkey has a reduced fat and protein content, helping to maintain a healthy body weight. The food contains Polish fruit and vegetables as well as nutraceuticals (humic acids, tannins and beta-glucans) that support metabolism and digestion. The addition of cranberry and rosehip supports immunity and urinary tract health, while the chondroprotective complex helps support the musculoskeletal system.

Ingredients: turkey 45% (including: dried turkey 32%, fresh turkey 13%), potato flakes 19%, beet pulp, salmon oil 4%, dried cranberries 4%, vegetables 4% (carrot, celery, pumpkin), Boskoop apples, humic acids, rosehip, beta-glucans, MOS (mannan-oligosaccharides), FOS (fructo-oligosaccharides), tannins (sweet chestnut extract), collagen, glucosamine (350 mg/kg), chondroitin (80 mg/kg).

DRY DOG FOOD

FOR PREGNANT DOGS | FOR PUPPIES

Puppy Starter

Kibble size:

UNI SIZE

Available pack sizes:

1 kg | 10 kg | 15 kg

Analytical constituents:

crude protein	crude fat	crude ash	crude fibre
30%	22%	7,5%	3,5%

moisture	calcium	phosphorus
8%	1,6%	1,1%

Exceptionally nutritious, complete dry food for pregnant and lactating dogs, as well as puppies from 4 weeks of age. It provides a balanced diet with an optimal amount of highly digestible protein and valuable carbohydrates, supporting both a healthy start for puppies and the condition of the mother. The formula is enriched with health-supporting nutraceuticals, easily digestible rice and high-quality meats: veal, lamb and turkey.

Ingredients: veal, turkey and lamb 55% (including: dried veal 35%, fresh turkey 15%, dried lamb 5%), beef and pork fat 15%, rice 13%, vegetables 13% (carrot, parsley, spinach, potato flakes), apple, beet fibre, brewer's yeast, collagen, salmon oil, natural humic acids, oyster mushroom, tannins (sweet chestnut extract), linseed, glucosamine (600 mg/kg), chondroitin (800 mg/kg).

Puppy & Junior Beef with Turkey

Kibble size:

S/M

Available pack sizes:

Goat meat is a highly digestible, lean meat with a low fat content, recommended for overweight dogs or dogs with high cholesterol. It is rich in B vitamins, vitamin C and minerals that support the nervous system, bones, immunity and a healthy, shiny coat.

Ingredients: 50% goat meat (including: 50% muscle meat, 50% offal), 25% fresh potatoes, 23% fresh carrots, 2% parsley.

Marchwi mnie ten bażant

Pheasant meat is a lean, highly digestible source of protein that helps maintain a healthy body weight. It provides B vitamins and supports the muscles, heart and nervous system, while the addition of plum and carrot aids digestion and provides vitamin A.

Ingredients: 84% pheasant meat (including: 60% muscle meat, 17% gizzards, 16% hearts, 7% necks/wing bones), 10% fresh carrots, 2% buckwheat groats, 2% amaranth, 2% dried plums.

Proso państwa, oto kaczka!

Duck meat is tasty and nutritious, rich in protein, minerals and vitamins. This food is particularly recommended for active dogs and dogs requiring a high-protein diet, especially during colder weather. It helps support everyday energy levels and overall condition.

Ingredients: 80% duck meat (including: 60% muscle meat, 19% gizzards, 12.5% hearts, 8.5% necks), 15% fresh carrots, 3% millet, 2% pears.

Horse meat is low in fat and provides highly digestible protein, making it an excellent choice for dogs with food allergies. Due to its high iron and zinc content, it is also recommended for dogs with anaemia, dogs recovering from surgery, and bitches during the postpartum period.

Ingredients: 90% horse meat (including: 60% muscle meat, 22% lungs, 11% hearts, 3% larynx, 2% trachea, 2% liver), 5% linseed, 5% carrots.

Nie bądź jeleń, w kaszę dmuchaj

Venison is a lean, well-vascularised meat rich in highly digestible protein and iron. It also contains valuable vitamins and minerals, including magnesium, B vitamins, calcium and phosphorus, which support the nervous and skeletal systems. It is therefore also an excellent choice for dogs with food allergies.

Ingredients: 93% venison (including: 64.5% muscle meat, 26% lungs, 9.5% trachea), 5% buckwheat groats, 1% cranberries, 1% leeks.

Rosehip fruit

Finely ground rosehip fruit is a rich source of easily absorbed vitamin C, which supports immunity. It also contains valuable antioxidants that help protect the body and is recommended for dogs and cats with reduced immunity, mobility problems and urinary tract issues.

Ingredients: 100% finely ground seedless rosehip fruit (Rosa canina L.).

Brewer's yeast

A natural supplement made from inactive brewer's yeast, rich in nucleotides, amino acids, trace elements and B vitamins. It supports digestion through its prebiotic and probiotic properties, helps improve skin and coat condition, and supports immunity. Recommended for young animals during growth as well as senior dogs and cats. An ideal addition to both BARF and commercial diets.

Ingredients: inactive, dried brewer's yeast (100% Saccharomyces cerevisiae).

Kaolin clay

Bemo's pharmaceutical-grade kaolin is a natural feed additive that effectively supports digestive processes and helps maintain normal stool consistency in dogs and cats. Kaolin clay has detoxifying properties and supports the proper functioning of the digestive system. The product is also recommended for preventive dental hygiene.

Ingredients: (E559) kaolin clay.

Collagen

Hydrolysed type I collagen derived from the skin of ocean fish, with a low-molecular-weight structure that supports better absorption and the proper functioning of tissues, organs and body systems.

Ingredients: fish collagen extracted from the skin of ocean fish.

MSM

Methylsulfonylmethane is an organic compound containing biogenic sulphur, derived from pine bark pulp. Pharmaceutical-grade MSM provides excellent support for musculoskeletal dysfunction. It helps nourish the skin, coat and claws, may help prevent muscle cramps, and supports faster post-exercise recovery. MSM also helps reduce allergic reactions and supports healthy musculoskeletal function.

Ingredients: 100% methylsulfonylmethane.

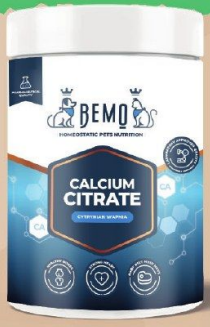

New Zealand green-lipped mussel

Freeze-dried, powdered New Zealand green-lipped mussel (Perna canaliculus). A rich source of glycosaminoglycans (GAGs), EPA and DHA fatty acids, and amino acids. New Zealand green-lipped mussel supports the musculoskeletal system by providing components involved in the structure of cartilage and joint fluid. Thanks to its Omega-3 fatty acids, it also helps maintain healthy skin and coat.

Ingredients: 100% New Zealand green-lipped mussel (Perna canaliculus).

Calcium citrate

Calcium citrate is a highly absorbable source of calcium that supports healthy bones and teeth, as well as the nervous and cardiovascular systems. Recommended for dogs and cats fed a BARF or home-cooked diet, as well as for active animals and those during pregnancy and lactation.

Ingredients: 100% calcium citrate.

Eggshell calcium

Finely ground chicken eggshell powder, providing a highly absorbable source of animal-derived calcium. It supports healthy bones and teeth, proper heart and nervous system function, and helps balance phosphorus levels in the diets of dogs and cats.

Ingredients: 100% chicken eggshell powder.

Algae-derived calcium

Organic calcium derived from red algae, characterised by high bioavailability and absorption. It helps replenish calcium deficiencies and supports the proper functioning of the skeletal system, heart and digestive system in dogs and cats.

Ingredients: 100% Lithothamnium calcareum.

120 g 700 g

Cistus

Finely ground cistus herb from natural crops grown in Turkish volcanic soils, rich in polyphenols with antibacterial, antiviral and antifungal properties. Recommended as a dietary supplement for dogs and cats with reduced immunity or recurring infections.

Ingredients: 100% finely ground cistus herb (Cistus incanus L.).

Krill meal

MSC-certified Antarctic krill meal is a rich source of amino acids, vitamins and minerals. It provides EPA and DHA fatty acids that support healthy skin and coat, while natural astaxanthin acts as a powerful antioxidant and supports immunity.

Ingredients: 100% Antarctic krill meal, with the exoskeleton removed.

Brown algae

Brown algae is an organic, powdered seaweed – a natural multivitamin for dogs and cats. It is an excellent source of highly absorbable iodine, which supports healthy thyroid and hormonal function. It also helps maintain healthy skin and coat, supports natural pigmentation and contributes to overall well-being.

Ingredients: 100% brown seaweed (Ascophyllum nodosum).

Taurine

Taurine is an organic dietary supplement belonging to the group of amino acids. It supports the proper functioning of the heart and nervous system. It is an essential component of a cat's diet and is also recommended for dogs with cardiac problems. The product contains no anti-caking agents, preservatives or flavour enhancers.

Ingredients: (3a370) taurine.

Freshwater microalgae

Premium-quality freshwater microalgae from natural sources. Exceptionally rich in highly digestible protein, vitamins and minerals. It provides excellent support for the immune system and the body's natural detoxification processes. Particularly recommended for overweight animals and active dogs exposed to intense physical exercise.

Ingredients: 100% spirulina (Spirulina platensis).

Powdered egg yolk

Finely ground, dried chicken egg yolk is a rich source of vitamins, minerals, energy and fatty acids. It is a highly palatable addition to the daily diet of dogs and cats, particularly recommended for exceptionally fussy eaters. It supports healthy skin and coat and helps maintain vitality in both dogs and cats.

Ingredients: 100% chicken egg yolk.

Meat Balls with pheasant

Pheasant meat is lean and rich in highly digestible protein and B vitamins. It supports healthy body weight, muscle condition and healthy cholesterol levels.

Ingredients: fresh turkey 70%, dried pheasant 27%, parsley, spinach, beetroot, humic substances, milk thistle, oyster mushroom, tannins (sweet chestnut extract), hemp flour, St John's wort, brewer's yeast.

Meat Balls with duck

Duck meat is exceptionally palatable and particularly suitable for fussy dogs, while beef provides energy thanks to its iron, B vitamins and BCAA amino acids, which support the nervous system.

Ingredients: fresh beef 77%, dried duck 20%, parsley, spinach, beetroot, humic substances, milk thistle, oyster mushroom, tannins (sweet chestnut extract), hemp flour, St John's wort, brewer's yeast.

Meat Balls with fish

Fish supports dogs with food intolerances and provides Omega-3 fatty acids, while beef supplies energy thanks to its iron, B vitamins and BCAA amino acids.

Ingredients: fresh beef 77%, dried fish (zander, pike, trout) 20%, parsley, spinach, beetroot, humic substances, milk thistle, oyster mushroom, tannins (sweet chestnut extract), hemp flour, St John's wort, brewer's yeast.

Packaging:

180 g

Meat Balls with venison

Roe deer and venison are highly digestible, low in calories and rich in minerals, making them an excellent choice for dogs with allergies. Turkey is a lean, easily digestible source of protein, recommended for dogs with allergies and those on light diets.

Ingredients: fresh turkey 70%, dried venison 26%, parsley, spinach, beetroot, humic substances, milk thistle, oyster mushroom, tannins (sweet chestnut extract), hemp flour, St John's wort, brewer's yeast.

Packaging:

180 g

Meat Balls with rabbit

Rabbit meat is highly digestible, tender and succulent, making it ideal for fussy dogs. Turkey is a healthy, low-fat source of protein, recommended for dogs with allergies and those on low-calorie diets.

Ingredients: fresh turkey 74%, dried rabbit 22%, parsley, spinach, beetroot, humic substances, milk thistle, oyster mushroom, tannins (sweet chestnut extract), hemp flour, St John's wort, brewer's yeast.

Packaging:

180 g

Meat Balls with lamb

Lamb is highly digestible and rich in nutrients. It is low in fat and provides a high level of hypoallergenic protein, as well as B vitamins and minerals, including calcium, iron and zinc.

Ingredients: fresh turkey 69%, dried lamb 29%, parsley, spinach, beetroot, humic substances, milk thistle, oyster mushroom, tannins (sweet chestnut extract), hemp flour, St John's wort, brewer's yeast.

Meat Strips with goat

Goat meat is a valuable, nutritious source of protein (approx. 20–23%), supporting muscle mass, tissue regeneration and the proper functioning of the dog's body.

Ingredients: 100% goat.

Meat Strips with wild boar

Wild boar is a natural, valuable source of protein (approx. 20–24%), particularly recommended for dogs with allergies or those needing more variety in their diet. It supports muscle growth and regeneration as well as overall condition.

Ingredients: 100% wild boar.

Meat Strips with cod

Cod is highly digestible and rich in nutrients, providing high-quality protein (approx. 18–20%) that supports muscle health, immunity and metabolism. It is also a valuable source of Omega-3 fatty acids.

Ingredients: 100% cod.
